

15 & 16
october
2026

INTERNATIONAL SYMPOSIUM ON HEALTH DATA

FROM MEDICAL RECORDS TO HEALTH DATA/
CREATION, PRESERVATION AND REUSE

PROGRAM

University of Lille- France

Campus Pont de Bois

Villeneuve d'Ascq

Salle des conseils (B1.149)

From Medical Records to Health Data

Production, Preservation, Reuse · University of Lille · 2026 Oct. 15-16

Thursday, October 15, 2026

MORNING ·Generate and Preserve

09 AM – 09.30 AM

Welcome coffee

09.30 AM – 10.00 AM

Opening

Laurence Favier¹, Antoine Lamer², Paul Quindroit³,
Jean-Baptiste Beuscart⁴, Fabien Wille⁵

¹Professor in Information and Communication Sciences, University of Lille, ULR 4073 Gérico

²Data scientist at F2RSM Psy and Associate Senior Lecturer in Health Engineering, ULR METRICSS

³Senior Lecturer in Nursing Sciences, University of Lille, Faculty of Medicine, ULR METRICS

⁴University Professor - Hospital Practitioner, Acute Geriatric Medicine Department, CHU de Lille, Director of ULR METRICS

⁵Professor of Information and Communication Sciences, Director of ULR Gérico, University of Lille

10.00 AM – 10.45 AM

Opening Address

Data at the Bedside of Patients Undergoing Cardiac Surgery with Cardiopulmonary Bypass: Potential, Applications, and Limitations

Benoit Brassart, Hospital Practitioner, CHU de Lille, Institut Cœur Poumon, ULR METRICS ; Dylan Dupont, Perfusionist, CHU de Lille, Institut Cœur Poumon ; Loïc Lefebvre, Hospital Practitioner, CHU de Lille, Institut Cœur Poumon ; Mouhamed D. Moussa, University Professor - Hospital Practitioner (PUHP), CHU de Lille, Institut Cœur Poumon Anesthesiologist-Intensivist, ULR METRICS

10.45 AM – 10.30 AM

Thematic Session 1: Generating Health Data

Chair: Antoine Lamer, Data scientist at F2RSM Psy and Associate Senior Lecturer in Health Engineering, ULR METRICS

10.45 AM – 11.15 AM

Creating and maintaining Electronic Medical Records. An ethnographic study of hospital data management, between technical infrastructure and medical challenges

Laurène Assaily, Postdoctoral Researcher in Sociology, Digital Health Institute, Centre Maurice Halbwachs - École Normale Supérieure - PSL

11.15 AM – 11.45 AM

Are Nurses the Unseen Producers of Health Data? Insights from a Review of Nursing Writings in Health Data Infrastructure

Paul Quindroit, Lecturer in Nursing Sciences, University of Lille, Faculty of Medicine, ULR METRICS ; Emmanuelle Carton, Professor of Nursing Sciences at Université Paris Cité and Editor-in-Chief of "Recherche en soins infirmiers", INSERM, UMR 1123 – ECEVE, Paris, France

11.45 AM – 12.15 PM

Medical Secretaries and the Folds of the Patient Record: Medical-Administrative Work Facing the Challenge of "Digitization" in Hospitals

Fanny Maurel, Postdoctoral Researcher, LIST3N, TECHPRA Axis, University of Technology of Troyes

12:15 – 13:30 · Lunch

Thursday, October 15, 2026

Afternoon · Generate and Preserve

13.30 PM – 15.30 PM

Thematic Session 2: Writing, Capturing and Coding: Data Rematerialization

Chair: Paul Quindroit, Lecturer in Nursing Sciences, University of Lille, Faculty of Medicine, ULR METRICS

13.30 PM – 14.00 PM

Maintaining the Patient's Care Continuity: Shared Records in Psychiatry-Balancing Traceability, Information Sharing, and Continuity of Care

Julien Nonnez, Advanced Practice Nurse in Psychiatry, EPSM des Flandres

14.00 PM – 14.30 PM

Digitization of Medical Records in Psychiatry: Between Content Standardization and Professional Resistance

Stéphanie Ferrer-Blanco Dardar, Health Archivist Engineer GHTpsy 59-62, PhD Candidate at Gérieco Laboratory – Information and Document Sciences, University of Lille

14.30 PM – 15.00 PM

A Shared Medical Record Without "Data"? Platformization of the National Health Information System and the Central Role of Interoperability Knowledge

Mariele Poussou-Plesse, Senior Lecturer in Sociology, Université Bourgogne Europe, UR LIR3S ; Renaud Gay, Senior Lecturer in Political Science, Université Lumière Lyon 2, UMR Triangle

15.00 PM – 15.30 PM

From the Medical Record to Health Data: The Datafication of the Medical Record as a Reconfiguration of Knowledge, Memory, and Governance

Mayi Marlene Nikabou, PhD Candidate in Information and Document Sciences, Gérieco Laboratory, University of Lille

15.30 – 15.45 · Break

15.45 PM – 18.00 PM

Thematic Session 3: Preservation

Chair: Pr Laurence Favier, Professor of Information and Communication Sciences, University of Lille, Gérieco Laboratory

15.45 PM – 16.30 PM

Panel: Hospital Archivists and the Digitization of Medical Records

Panel Chair: Joana Casenave, Lecturer in Information and Communication Sciences, University of Lille, Gérieco Laboratory

Report-back by Representatives of the French Archivists Association (AAF) of their National Seminar

Emilie Fromont, Head of Medical Archives at the Hospital Center of Pays de Morlaix ; Mona Le Bris, Head of Medical Archives at Centre Hospitalier Guillaume Rénier, Rennes ; Stéphanie Dardar, Archivist Engineer at Etablissement Public de Santé Mentale Lille Métropole, GHTpsy Nord-Pas de Calais

Feedback of Numih France, France's leading public entity dedicated to the digital transformation of healthcare facilities

Jérôme Fontanier, Digital Health Products Division, Numih France

Perspectives from West Africa. The Digitization of Medical Records in the French-Speaking Region of West Africa: Challenges and Prospects

Georges Théotime Hounyo, Archivist, President of the International Association of French-Speaking Archivists (AIAF), Head of the Pre-Archiving and Knowledge Management Service, Ministry of Economy and Finance, Benin

Panel's Conclusions & Discussions .

Session 3 continued : Preservation

16.30 PM – 17.00 PM

"Being an archivist is a real profession": Data Management and the Preservation of Digital Archives

Léonard Rolland-Blin – University of Technology of Troyes, LIST3N|TPRA ; Khuloud Abouamsha – University of Technology of Troyes, LIST3N|TPRA ; Matthieu Tixier – University of Technology of Troyes, LIST3N|TPRA

17.00 PM – 17.30 PM

From medical records to data warehouses: Should we keep everything? Reflections on the limits of "keeping everything" in the age of artificial intelligence

Bernard Ben Sadoun, Lecturer at EHESP (École des hautes Études en Santé Publique, Rennes) – Reserve Officer attached to the Regional Military Instruction Hospital of Brest

17.30 PM – 18.00 PM

Keynote Address

Is explainable AI good enough for accountability?

Luciana Duranti, Professor Emerita, School of Information, University of British Columbia (Canada), Principal Investigator of the international InterPARES project (Phase 5 "Interpres Trust AI")

From Medical Records to Health Data

Production, Preservation, Reuse : University of Lille, 2026 Oct. 15-16

Friday, October 16, 2026

Morning · Reusing Data and Generating Knowledge

9.00 AM – 9.30 AM

Introductory Conference

The Second Life of Health Data: Promises, Limitations, and Methodological Challenges

Antoine Lamer, Data Scientist, University of Lille ; François Antonini, Assistance Publique des Hôpitaux de Marseille, Medical Information Department

9.30 AM – 11.00 AM

Thematic Session 4: Data Reusability

Chair: Pr Emmanuel CHAZARD, Professor of Medicine (PU-PH) Public Health, Biostatistics, and Medical Informatics, University of Lille

09.30 AM – 10.00 AM

Unlocking the insights in health data: A Methodological Shift in Drug Surveillance

Solène Lellinger, Lecturer in History and Philosophy of Health at Université Paris Cité, SPHERE Laboratory UMR 7219

10.00 AM – 10.30 AM

Administrative health databases in rare bone diseases: possibilities, pitfalls, and open questions

Cécile Philippoteaux, Rheumatologist, CHU de Lille

10.30 AM – 11.00 AM

What kind of infrastructure is needed for data management in multidisciplinary primary care settings?

Hoang-Viêt Le, UR LIST3N, University of Technology of Troyes ; Myriam Lewkowicz, Professor in Computer Science, Digital Technologies for Cooperation (CSCW), UR LIST3N, University of Technology of Troyes ; Joris Falip, Lecturer in Computer Science, UR LIST3N, University of Technology of Troyes

11:00 – 11:15 · Break

11.15 AM – 12.30 PM

Thematic Session 5: Knowledge Generation from Health Data

Chair: Amel Fraisse, Lecturer in Information and Communication Sciences, University of Lille, Gérieco Laboratory

11.15 AM – 11.45 AM

Electronic Medical Record and One Digital Health: Challenges in Integrating Social, Economic, and Environmental Determinants of Health

Arriel Benis, Adjunct Associate Professor in the Department of Biomedical Engineering, DUKE University, USA

11.45 AM – 12.15 PM

Citizens' and Patients' Acceptance of the Reuse of Health Data

Audrey Heuson, Ph.D. in Pharmacy, Digital Health Lawyer, Project Manager for the CAPS'UL Digital Health CMA, UFR3S, University of Lille

12:15 – 12:30 · Discussion

12:30 – 13:30 · Lunch

Friday, October 16, 2026**Afternoon · Reusing Data and Generating Knowledge****13.30 PM – 14.30 PM****Thematic Session 5 continued: Knowledge Generation from Health Data****Chair:** Ismail Timimi, Lecturer in Information and Communication Sciences, University of Lille, Gérico Laboratory**13.30 PM – 14.00 PM*****Are Hematology-Oncologists Blind to Workplace Harms? Valid Organizational Reasons for Poor-Quality Hospital Data from an Epidemiological Perspective on Occupational Cancers***

Sylvain Brunier (Centre for Sociology of Organizations : CSO-CNRS), Jean-Noël Jouzel (CSO-CNRS), Giovanni Prete (IRIS-Uspn - Interdisciplinary Research Institute on Social Issues, Université Paris Sorbonne Nord)

14.00 PM – 14.30 PM***How Health Data Can Generate New Insights***

Michel Durampart, Professor in Information and Communication Sciences at the University of Toulon, Information, Communication & Health Study and Research Group of SFSIC ; Olivier Galibert, Professor in Information and Communication Sciences at the University of Burgundy, Information, Communication & Health Study and Research Group of SFSIC

14.30 PM - 16.00 PM**Thematic Session 6: International Comparisons and European Perspectives****Chair:** Pr Widad Mustafa El Hadi, Professor of Information and Communication Sciences, University of Lille**14.30 PM – 15.00 PM*****From the clinical record to the data catalog: ethical challenges of the reuse of health data for knowledge organization***

Lorena Estévez-Iglesias, PhD Candidate, University of León (Spain) ; Daniel Martínez-Avila, Professor of Information Science, University of León (Spain) ; Blanca Rodríguez-Bravo, Professor of Information Science, University of León (Spain)

15.00 PM – 15.30 PM***Addressing the Quality of Health Data in West Africa: Governance and Reusability Challenges in the Context of the ROADIS Revival (WAHO/ECOWAS)***

Bernadette N'kpedji, PhD in Information and Communication Sciences, Gerico Laboratory and ATER at the University of Lille

15.30 PM – 16.00 PM***The medical record: Between a record of care and a data infrastructure—information practices and challenges in the digitization of medical records in Togo***

Achille Tchabou, Medical Doctor, PhD Candidate in Information and Communication Sciences and ATER at the University of Lille

16:00 – 16:15 · Break

16.15 PM - 17.45 PM**Thematic Session 6 continued: International Comparisons and European Perspectives****Chair:** Pr Widad Mustafa El Hadi, Professor of Information and Communication Sciences, University of Lille**16.15 PM – 16.45 PM*****The European Joint Action « Towards a European Health Data Space – 2 » (TEHDAS2)***

Markus Kalliola, Coordinator in the EU's Joint Action Towards the European Health Data Space (TEHDAS2) and Nordic VALO project. Program Director in Sitra's Future of Well-being solutions program

16.45 PM – 17.15 PM***Value trade-offs in the European Health Data Space***

Luca Marelli, Associate Professor, Ethics and Governance of Health Research, Department of Medical Biotechnology and Translational Medicine. Scientific Coordinator POLHIS, Research Center for the Ethics and Politics of Health Data Ecosystems. University of Milan, Italie

17.15 PM – 17.45 PM***Italy's Approach to Electronic Medical Records: Data Production, Preservation and Reuse in the European Health Data Space***

Maria Teresa Chiaravalloti, Senior Researcher, Institute of Informatics and telematics (IIT), Italian National Research Council; Antonietta Folino, Associate Professor, Università della Calabria; Erika Pasceri, Associate Professor, University of Calabria (Italy)

17.45 PM – 18.15 PM**Conference Closing**

Laurence Favier, Antoine Lamer, Paul Quindroit
